

# FOOD ASSISTANCE CONVENTION

## PREAMBLE

*The Parties to this Convention,*

*Confirming* their continued commitment to the still valid objectives of the *Food Aid Convention, 1999*, to contribute to world food security, and to improve the ability of the international community to respond to emergency food situations and other food needs of developing countries;

*Seeking* to improve the effectiveness, efficiency, and quality of food assistance in preserving the lives and alleviating the suffering of the most vulnerable populations, especially in emergency situations, by strengthening international cooperation and coordination, in particular among the Parties and stakeholders;

*Recognising* that vulnerable populations have particular food and nutritional needs;

*Affirming* that States have the primary responsibility for their own national food security, and therefore for the progressive realisation of the right to adequate food as set out in the Food and Agriculture Organization (FAO) *Voluntary Guidelines to support the Progressive Realization of the Right to Adequate Food in the Context of National Food Security* adopted by the FAO Council in November 2004;

*Encouraging* governments of food insecure countries to develop and implement country-owned strategies that address the root causes of food insecurity through long-term measures, and that ensure proper linkages between relief, recovery and development activities;

*Referring* to international humanitarian law and the fundamental humanitarian principles of humanity, impartiality, neutrality and independence;

*Referring* to the Principles and Good Practice of Humanitarian Donorship, endorsed in Stockholm on 17 June 2003;

*Recognising* that the Parties have their own policies related to providing food assistance in emergency and non-emergency situations;

*Considering the World Food Summit Plan of Action adopted in Rome in 1996, as well as the Five Rome Principles for Sustainable Global Food Security identified in the Declaration of the World Summit on Food Security of 2009, in particular the commitment to achieve food security in all countries and the ongoing effort to reduce poverty and eradicate hunger that was reaffirmed by the United Nations General Assembly in the United Nations Millennium Declaration;*

*Considering the commitments made by donor and recipient countries to improve development aid effectiveness by applying the principles of the Organisation for Economic Cooperation and Development's (OECD) Paris Declaration on Aid Effectiveness adopted in 2005;*

*Determined to act in accordance with their World Trade Organization (WTO) obligations, in particular any WTO disciplines on food aid;*

*Have agreed as follows:*

## **Article 1 Objectives**

The objectives of this Convention are to save lives, reduce hunger, improve food security, and improve the nutritional status of the most vulnerable populations by:

- (a) addressing the food and nutritional needs of the most vulnerable populations through commitments made by the Parties to provide food assistance that improves access to, and consumption of, adequate, safe and nutritious food;
- (b) ensuring that food assistance provided to the most vulnerable populations is appropriate, timely, effective, efficient, and based on needs and shared principles; and
- (c) facilitating information-sharing, cooperation, and coordination, and providing a forum for discussion in order to improve the effective, efficient, and coherent use of the Parties' resources to respond to needs.

## **Article 2**

### **Principles of Food Assistance**

The Parties, in providing and delivering food assistance to the most vulnerable populations, should always adhere to the following principles:

- (a) General principles of food assistance:
  - (i) provide food assistance only when it is the most effective and appropriate means of addressing the food or nutrition needs of the most vulnerable populations;
  - (ii) provide food assistance, taking into account the long-term rehabilitation and development objectives of the recipient countries, while supporting the broader goal of achieving food security, whenever appropriate;
  - (iii) provide food assistance in a manner that protects livelihoods and strengthens the self-reliance and resilience of vulnerable populations, and local communities, and that prevents, prepares for, mitigates and responds to food security crises;
  - (iv) provide food assistance in such a way as to avoid dependency and minimise direct and indirect negative impacts on beneficiaries and others;
  - (v) provide food assistance in a way that does not adversely affect local production, market conditions, marketing structures and commercial trade or the price of essential goods for vulnerable populations;
  - (vi) provide food aid in fully grant form, whenever possible;
- (b) Principles of food assistance effectiveness:
  - (i) in order to increase the amount available to spend on food assistance for vulnerable populations and to promote efficiency, minimise associated costs as much as possible;

- (ii) actively seek to cooperate, coordinate and share information to improve the effectiveness and efficiency of food assistance programs, and the coherence between food assistance and related policy areas and instruments;
  - (iii) purchase food and other components of food assistance locally or regionally, whenever possible and appropriate;
  - (iv) increasingly provide untied cash-based food assistance, whenever possible and based on needs;
  - (v) only monetise food aid where there is an identified need to do so, and to improve the food security of vulnerable populations; base monetisation on transparent and objective market analysis and avoid commercial displacement;
  - (vi) ensure food assistance is not used to promote the market development objectives of the Parties;
  - (vii) avoid re-exportation of food aid to the maximum extent possible except to prevent or respond to an emergency situation; only re-export food aid in a manner that avoids commercial displacement;
  - (viii) acknowledge, where appropriate, that relevant authorities or relevant stakeholders have the primary role and responsibility for the organisation, coordination and implementation of food assistance operations;
- (c) Principles on the provision of food assistance:
- (i) target food assistance according to the food and nutrition needs of the most vulnerable populations;
  - (ii) involve beneficiaries in the assessment of their needs and in the design, implementation, monitoring and evaluation of food assistance, as well as other relevant stakeholders, where appropriate;

- (iii) provide food assistance that meets applicable safety and quality standards, and that respects cultural and local dietary habits and the nutritional needs of the beneficiaries;
- (iv) uphold the dignity of beneficiaries of food assistance;
- (d) Principles of food assistance accountability:
  - (i) take specific and appropriate measures to strengthen the accountability and transparency of food assistance policies, programs, and operations;
  - (ii) monitor, evaluate, and communicate, on a regular and transparent basis, the outcomes and the impact of food assistance activities in order to further develop best practices and maximise their effectiveness.

### **Article 3** **Relationship with WTO Agreements**

Nothing in this Convention shall derogate from any existing or future WTO obligations applicable between Parties. In case of conflict between such obligations and this Convention, the former shall prevail. Nothing in this Convention will prejudice the positions that a Party may adopt in any negotiations in the WTO.

### **Article 4** **Eligible Country, Eligible Vulnerable Populations, Eligible Products, Eligible Activities, and Associated Costs**

1. “Eligible Country” means any country on the OECD’s Development Assistance Committee (DAC) list of Official Development Assistance Recipients, or any other country identified in the Rules of Procedure and Implementation.
2. “Eligible Vulnerable Populations” means vulnerable populations in any Eligible Country.

3. “Eligible Products” means products for human consumption that comply with relevant national policies and legislation of the country of operation, including, as appropriate, applicable international food safety and quality standards as well as products that contribute to meeting food needs and protecting livelihoods in emergency and early recovery situations. The list of Eligible Products is provided in the Rules of Procedure and Implementation.

4. Eligible Activities for the fulfilment of a Party’s minimum annual commitment in accordance with Article 5 shall be consistent with Article 1, and shall include at least the following activities:

- (a) the provision and distribution of Eligible Products;
- (b) the provision of cash and vouchers; and
- (c) nutritional interventions.

These Eligible Activities are further elaborated in the Rules of Procedure and Implementation.

5. Associated Costs eligible for the fulfilment of a Party’s minimum annual commitment according to Article 5 shall be consistent with Article 1, and shall be limited to costs directly linked to the provision of Eligible Activities, as further elaborated in the Rules of Procedure and Implementation.

## **Article 5 Commitment**

1. To meet the objectives of this Convention, each Party agrees to make an annual commitment of food assistance, set in accordance with its laws and regulations. Each Party’s commitment is referred to as its “minimum annual commitment”.

2. The minimum annual commitment shall be expressed in terms of value or quantity as further elaborated in the Rules of Procedure and Implementation. A Party may choose to express either a minimum value or a minimum quantity, or a combination of both for its commitment.

3. Minimum annual commitments in terms of value can be expressed in the currency chosen by the Party. Minimum annual commitments in terms of quantity can be expressed in tonnes of grain equivalent or other units of measure provided under the Rules of Procedure and Implementation.
4. Each Party shall notify the Secretariat of its initial minimum annual commitment as soon as possible and no later than six months following the entry into force of this Convention, or within three months of its accession to this Convention.
5. Each Party shall notify the Secretariat of any change to its minimum annual commitment for subsequent years no later than the fifteenth day of December of the year preceding the change.
6. The Secretariat shall communicate the updated minimum annual commitments to all of the Parties as soon as possible and no later than the first day of January of each year.
7. Contributions made to meet minimum annual commitments should be made in fully grant form whenever possible. With respect to food assistance counted towards a Party's commitment, not less than 80 per cent provided to Eligible Countries and Eligible Vulnerable Populations, as further elaborated in the Rules of Procedure and Implementation, shall be in fully grant form. To the extent possible, the Parties shall seek progressively to exceed this percentage. Contributions that are not made in fully grant form should be accounted for in each Party's annual report.
8. The Parties shall undertake to conduct all food assistance transactions under this Convention in such a way as to avoid harmful interference with normal patterns of production and international commercial trade.
9. The Parties shall ensure that the provision of food assistance is not tied directly or indirectly, formally or informally, explicitly or implicitly, to commercial exports of agricultural products or other goods and services to recipient countries.
10. To meet its minimum annual commitment, whether expressed in value or quantity, a Party shall make contributions that are consistent with this Convention and that consist of funding for Eligible Products and Activities, and Associated Costs, as set forth in Article 4, and as further elaborated in the Rules of Procedure and Implementation.

11. Contributions provided to meet the minimum annual commitment under this Convention may only be directed at Eligible Countries or Eligible Vulnerable Populations, as set forth in Article 4 and as further elaborated in the Rules of Procedure and Implementation.

12. The Parties' contributions may be provided bilaterally, through intergovernmental or other international organisations, or through other food assistance partners, but not through other Parties.

13. Each Party shall make every effort to meet its minimum annual commitment. If a Party is unable to meet its minimum annual commitment for a particular year, it shall describe the circumstances of its failure to do so in its annual report for that year. The unfulfilled amount shall be added to the Party's minimum annual commitment for the following year unless the Committee established under Article 7 decides otherwise, or unless extraordinary circumstances justify not doing so.

14. If a Party's contribution exceeds its minimum annual commitment, the amount of the excess, but not more than five per cent of its minimum annual commitment, may be counted as part of the Party's contribution for the following year.

## **Article 6**

### **Annual Reporting and Information Sharing**

1. Within ninety days after the end of the calendar year, each Party shall provide an annual report, in accordance with the Rules of Procedure and Implementation, to the Secretariat, detailing how it met its minimum annual commitment under this Convention.

2. This annual report shall contain a narrative component that may include information on how the Party's food assistance policies, programs and operations contribute to the objectives and principles of this Convention.

The Committee should provide a forum for discussion among the Parties with respect to food assistance matters, such as the need to mobilise appropriate and timely resource commitments to address the food and nutritional needs, especially in specific emergency and crisis situations. In the absence of the Chairperson and the Vice-Chairperson, the Committee shall appoint a temporary Chairperson.
